MLs signifies Measure Lengths.
The numbers in the leftmost column are the MLs for the " C " section(s). The numbers at the top of the table are the MLs for the " $D$ " section(s).
A number within a cell at the intersection of a line and a column provides the number of times a particular pair of values is used.

Line sums indicate, for example, that 8 occurs 38 times as the first term of a C1:D1 pair Column sums indicate, for example, that 8 occurs 9 times as the second term of a C1:D1 pair.
