Haydn SQ Minuet Data
Distribution of M:T pairs

TMLs	32	36	38	40	42	44	48	52	56	60	62	63	64	66	68	72	76	80	84	88	92	94	96	100	108	M totals
40	1					3	1																			5
44				1																						1
48			1						1	1	1															4
52	2						1		1	1			1													6
56	3		1				1			1			1													7
60					1				1																	2
64		1							1	2				1					1						1	7
68	1	1			1				1						2				1							7
70							1																			1
72				1			1	1	3																	6
74																			1							1
76						1			1																	2
80									1						1			1								3
82												1							1							2
84	1			3			1								1											6
88	1						1								1											3
92								1											1							2
94													1													1
96	1																									1
99																					1					1
100													2													2
104																1										1
107																				1						1
112					1														1							2
114								1																		1
116																			1							1
120																			1				1			2
156																			1							1
163																								1		1
T totals	10	2	1	6	3	4	7	2	9	7	1	1	4	1	3	2	2	5	2	3	1	1	1	1	1	**80**

The numbers in the leftmost column are the TMLs for the minuet section(s). The numbers at the top of the table are the TMLs for the trio section(s). Numbers within cells provide the number of times a particular pair of M:T values is used.

Legend:
- 🟩 1:1 ratios
- ⬜ (purple outline) 2:3 ratios
- 🟦 1:2 ratios

Line sums indicate, for example, that 56 occurs 7 times as the first term of an M:T pair.
Column sums indicate, for example, that 44 occurs 4 times as the second term of an M:T pair.
